ANDROID™ NETRUNNER™
THE CARD GAME

Flip Cards

The Jinteki Biotech card (⚙ 12) in The Valley data pack is double-faced. The three copies of Jinteki Biotech each have a different version of the card on the back side. The Corp player can build his deck around any one of the copies of Jinteki Biotech–all 3 have the same influence and minimum deck size restrictions–and then use the ability on the front side of the card to swap to a different version of the card from his collection before taking his first turn. There is no influence nor minimum deck size listed on the back sides of the Jinteki Biotech ID, as these values are not used during gameplay.

The back side of a double-faced identity is hidden knowledge, and the Runner cannot look at the back of the card.

By spending ⓘ ⓘ ⓘ, the Corp can flip the front of the ID to its back side. This triggers the ability on the back side of the identity. This is a once-per-game ability, as the Corp cannot choose to flip the ID back to its front.

When swapping IDs, the player can swap back to the original card (in case he is worried that his opponent knows which card he started with).

FRONT SIDE

WELCOME

BREAKER BAY
UNIVERSITY of THE CALIFORNIAS

YOUR FUTURE AWAITS

Welcome to Breaker Bay, home of the Sharks! Nestled along a pristine stretch of Monterey Bay coastline, our main university campus is over two thousand contiguous acres. Public hoppers are available to ferry students between departmental nodes, but many prefer to take the slidewalks and soak up the beautiful SoCal sun.

With multiple maglev station stops along the main SanSan Metro, our students are never far from the excitement and nightlife of the megapolis. But Breaker Bay isn't your granddaddy's college town, and one can find everything from holoball courts to technillap'u clubs. Check out the AguaGalería, the underwater shopping plaza where you can come face to face with the creatures of Breaker Bay's marine conservatory!

University of the Californias at Breaker Bay has something for everyone. **Upload** the attached datafile to your simsensie-capable PAD and take the **VIRTUAL TOUR** now!
